

One card per person, a team that is always up to date.

Your team shares their contact details with a single tap. You stay in control of everything from your dashboard.

IN 3 STEPS

Easy to roll out

1

Add

Your team members one by one, or the whole list at once.

2

Hand out

Everyone gets their card: their profile is already live.

3

Share

One tap, and the contact is saved to the phone.

1 tap

to save a contact

0 apps

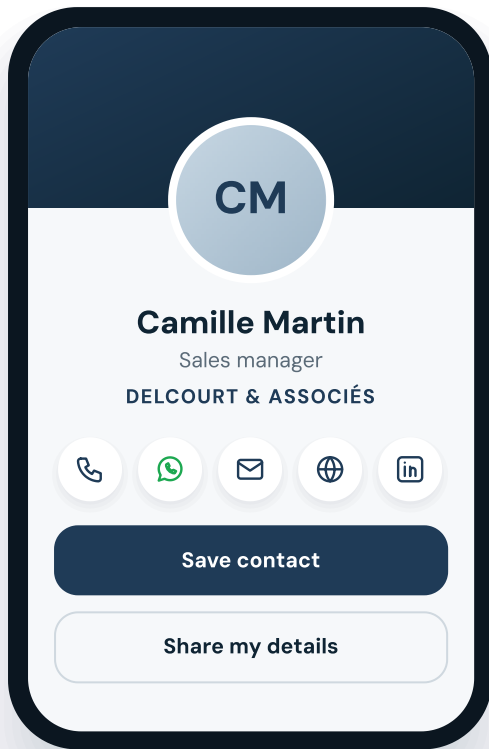

for your contacts to install

100%

up to date, no reprinting

WHAT YOUR CONTACT SEES

A clear profile, in your colours

Photo, name, job title

Everyone is recognised at a glance, in your company colours.

Call, WhatsApp, e-mail, LinkedIn

Every way to get in touch is just a thumb away.

Save contact

The full contact card lands in the phone's address book.

Share their details

Your contact shares theirs: they arrive by e-mail to your team member.

WORDS THAT WORK

No more lost business cards

"Just hold your phone near my card: everything's there."

"One tap, and I'm in your contacts and on WhatsApp."

iPhone: top of the phone · **Android:** middle of the back · **QR code:** the camera.

TWO OPTIONS

On a card, or anywhere else

NFC cards

One card per team member, 100% customised, with an NFC chip. From 10 people.

Profiles only

The online profile and its QR code, to display or print on your own materials: e-mail signature, badge, stand. From 5 people.

AS YOUR TEAM CHANGES

Everything is managed from your dashboard

Someone joins

Add them in the Team section: a spare card is assigned to them and their profile goes live straight away.

Something changes

New job title, new number: edit the profile, or let the person do it themselves with their personal link. The card follows, no reprinting.

Someone leaves

Remove the profile: the card shows your company page and can be handed to someone else.

Details shared by your contacts are gathered in the Team section, ready to export.

Import a list

The whole team at once, from a simple spreadsheet: the template is in your dashboard.

Colleague access

Up to 5 people (HR, assistants...) manage the team with their own e-mail address.

A new hire, a trade show, a new office?

Extra cards, digital profiles, table tents: order in a few clicks from your dashboard, under Order.
